NANAIMO NEWS.

A Fellow With a Revolver—Brickyard—Gambling Still Going on.

NANAIMO, April 6.—A man enjoying the sobriquet of "Dicky the Devil," pulled a revolver on a young man named Alfred Cassel on Saturday night in the Criterion restaurant, and threatened to shoot him. It appears the former had thrashed the latter on the previous night, while under the influence of liquor, and the two meeting in the restaurant in the evening, Cassel asked the other man, "Are you as good a man to-night as you were last night." "Yes," replied the imp of Satan, and forthwith drew a revolver, and threatened to discharge its contents into Cassel if he attempted to touch him. Cassel put his hands in his pockets and said "Shoot if you want to, you dirty cur!" The friends of both parties interfered and saved bloodshed.

ANXIOUS DEBATERS.

Debates on different subjects appear to be the principal pastime at the different clubs throughout the district. Politics are not much discussed at the present time, but are allowed to come up occasionally. Speaking of politics, many are anxious to see free trade established between the United States and this Island. It is believed here that until it is established the resources that lie so abundantly in this city will never be opened up. Protection is little talked of here and it is doubtful if there are 200 people in the city who believe in protection. There are a few who are anxious to debate the question, but none of the protection party are willing to come forward and take part in the arguments.

A BRICK YARD TO BE STARTED.

Mr. J. Anderson, of Victoria, is in this city endeavoring to make arrangements to open up a brick yard here. He has visited several fields of clay and expressed his satisfaction at the quality of the material which is distributed throughout the district in large quantities. If Mr. Anderson should be successful in finding a suitable location near the water, he intends to put in machinery and thus do away with the employment of Chinese. He appears to understand the manufacture of brick to perfection, and as the demand for this material is becoming more extensive, no doubt the new industry will prove a paying concern.

HOW GAMBLING IS CARRIED ON.

Since the police stopped gambling in the saloons many of the local and visiting gamblers have resorted to strategy to follow up the game. On Friday night a few of these individuals managed to get into an empty box car, and played there all night until the affair broke out in a row. One young man appears to have got the worst of the fight, but still it is hardly likely it will induce them to discontinue gambling. The police are on the alert and should any of them be caught they will suffer a heavy penalty.

LITTLE HAPPENINGS.

One of the curtains in the Southfield mine was accidently set on fire by a miner on Saturday, but was promptly put out before it could get headway.

A billard table has been added to the attractions at St. Paul's Institute.

The sum of $359 was handed over to the brass band from the receipts of "Neck or Nothing."

Catarrh is not a local but constitutional disease, and requires a constitutional remedy like Hood's Sarsaparil'a to effect a cure.

Pocket knives, table cutlery, scissors etc., at Fox's.

BRITISH ATTACKED

BY THE MIRANZI OF THE KONAT DISTRICT, PUNJAB.

The Situation Considered One of Gravity—Troops Being Hurried Forward to Strengthen the Forts—Government Officials at Calcutta Very Reticent.

CALCUTTA, India, April 6. — The startling news has reached here that, emboldened by the recent success of the Manipuris, the Miranzai in the Kohat district of the Reshawer division of the Punjab, have arisen in insurrection. Already the British lines have been attacked along their entire length. While it is not known or believed that the British lines will yield to a vigorous and unexpected attack of the Miranzais, the situation is considered to be one of utmost gravity. Troops of all arms are being rapidly hurried to strengthen the sorely pressed British forces in Kohat. Government officials are extremely reticent and refuse to give the details of the information which they have received from the insurrectionary district. Additional excitement has been created by dispatches from Rangoon, bringing news that the Haku Chins have revolted and attacked the British. A small British column proceeding from one military post to another was ambushed by the Chins' tribesmen. In the first fire the Chins instantly killed Lieut. Forbes and five soldiers, and severely wounded seven others. The surprised column, after returning the fire of the enemy, succeeded in extricating itself from the dangerous position into which it had been drawn.

O'MALLEY WON'T BE PUNISHED.

He Has Friends and Influence, and Besides the Indictments are Flimsily Founded.

NEW ORLEANS, April 6.—The vigilance committee last evening held a meeting and considered what disposition should be made of O'Malley. There was a strong sentiment in favor of hanging him, but it was finally agreed he would be permitted to stand trial; if not convicted to be summarily dealt with, as the indictments so far are formed on such flimsy evidence that acquittal is pretty sure if an impartial jury is found. Interesting developments may follow, as O'Malley will fight, and has friends behind him.

TERRIBLE HOLOCAUST.

Eleven Lives Lost in a Fire at Rochester, Pennsylvania.

ROCHESTER, Pa., April 6.—Eleven lives were lost in a fire at this place last night. The fire broke out in a large frame building on New York street, which was used as a residence and contained several stores. Four members of an Italian family who lived over one of the stores lost their lives. One daughter, aged 17, saved herself by jumping. The names of the others are not yet known. The building was owned by John F. Smith, and the stores were occupied by Geo. Edwards, tea and coffee; Mrs. Hall, millinery, and E. J. Keene, shoe shop.

OTTAWA NEWS.

A Slight Falling off in Exportation of Canadian Cattle.

Special to the TIMES.]

OTTAWA, April 6.—The report of the Minister of Agriculture just issued, shows that during the year 1890-91 386 head of cattle, 30,551 head of sheep, 1324 swine and 1694 horses were imported. Exports to the United Kingdom during the year were 12,182 head of cattle and 43,780 sheep, compared with 85,053 head of cattle and 58,983 sheep during 1889.

It is likely that the Government will place in the estimates the coming session a sum sufficient to defray the cost of boring experimental wells in Athabasca district in search of petroleum, believed by Dr. Selwyn, the director of the Geological Survey, to exist there in large quantities.

Dr. Orton, ex-M.P., who has just returned from England, left here to-day for Winnipeg. His visit to England was connected with the Revelstoke works which will start operations as soon as navigation opens to enable them to get ore from around Kootenay, to which access is furnished by the construction of the new Canadian Pacific Railway spur. Sixty tons a day will be produced, and bars of gold, silver and lead shipped to Wales for refining. The company contemplated doing the refining themselves in the near future. There is a dispute over the title to the land, about which Dr. Orton interviewed the Minister of the Interior to-day. He proposes to institute a suit against the Registrar-General of British Columbia, to set aside the title granted by that Province. The coke used in theses melting works is imported from Tacoma, and pays a duty of 60 cents a ton.

A NEW RAILWAY DEAL

Whereby There Will be Closer Traffic Communication Between Philadelphia and Chicago.

NEW YORK, April 6.—A special to the Herald from Philadelphia says that negotiations are about concluded for a close traffic alliance between the Reading and New York Central Railways. The acquisition of the Beech Creek Railway by the Vanderbilts has rendered possible a new route from Philadelphia to Chicago one hundred miles shorter than the present route via Lyons and the New York Central Railway. The Vanderbilts are to construct ninety miles of road from the western terminus of the Beech Creek Railway to Oil City, where connections will be made with the Lake Shore road thus forming the through route. At Ashtabula, docks are to be erected, over which the Reading Company will ship coal for Lake Superior points, and vessels will discharge their cargoes of iron ore to be delivered to furnaces in the Reading's territory. All rail freight to Chicago and other points on the Vanderbilt westerd system also go over this route, instead of the present one. Another contract will be made between Reading, Fall Brook and the New York Central Company's covering, and the business with central New York and Buffalo. The Reading has recently purchased a coal storage plant at Buffalo with a capacity of 35,000 tons, and intends to place more coal in the western anthracite market than before. The present contract with the New York Central was made nearly 10 years ago, and is wholly unsuited to the present conditions. President McLeod and some members of the voting trust will meet Mr. Depew and other New York Central officials some day this week to arrange the final details of the contract. The conduct of the negotiations has given rise to the rumor that the Vanderbilts' intend to buy out the syndicate which holds a controlling interest in Reading stock. It was even asserted that the Vanderbilt's had an option on the 50,000 shares held by John Wannamaker, but this is denied by the Post-master General, and other members of the syndicate here are ignorant of the existence of any such options. It is understood that Mr. Twombly, of New York, has made overtures to the syndicate, but as yet nothing has been accomplished.

SPORTING INTELLIGENCE.

Matters of Interest Going Forward in the Sporting World, Here and Elsewhere.

CYCLING.

Quite a few entries have already been made for next Saturday's road race to Cadboro bay park, and when there are such riders in it as Godson and that ilk, there is going to be some churning done to keep up with or near them. Mr. Piper, jr., is looked upon with suspicion. The boys see that he is one of those quiet fellows who can do a great deal without saying anything, and they want to have a run against him.

YACHTING.

This summer will see two pleasure yachts leave the shops at Warren's wharf, and join the Victoria fleet. One of them is for Mr. McDougall, late of the firm of Foot & McDougall. It is to be hoped that some effort will be made this season to stir up more interest in aquatics than has hitherto been shown.

THE TURF.

A GOOD COLT DEAD.

A thoroughbred colt by Ito, out of McNeil's Leapyear, foaled yesterday, died this morning. The animal had some of the best racing blood in his veins and as a good price had been promised for him, Mr. McNeil feels rather put out. The colt was splendidly marked.

Some Radical Changes.

WASHINGTON, April 6.—The Post to-day after referring to the possibility of America for Americans being one of the rallying cries of the next campaign will say: "It is regarded as quite within the range of probability that the national platforms next year will favor restrictive immigration laws or they may recommend that all foreigners who engage in business in the United States and enjoy the protection of this government shall become naturalized citizens. If Italy had not been so aggressive the issue would not have been so well defined, but as it is the attention of the people has been directed from New Orleans, and centered upon Rome. The very possibility of war has quickened the public pulse and the enormous influx of foreigners aggregating a million people a year has caused considerable discussion. If the sentiments that are now expressed privately by senators and representatives of both parties in Washington find an echo in the platforms they will make interesting reading. It is the utmost universal belief that the next congress will undertake to make some radical changes in immigration law.

Miller and Party Safe.

NEW YORK, April 6.—A cablegram from Ex-Senator Warner Miller, who with a party was stranded on the Roncador reef on March 26, was received to-day at the office of the Nicaragua Canal Construction Company, of which Miller is president. The message read: "We arrived at Greytown Thursday morning by the steamer Jarazo, all safe and well. (Signed) WARNER MILLER." The Honduras & Central American Steamship Company also received a cablegram from James Rankin, the New York representative of the company, saying: "Just arrived at Greytown, safe and well." Later, a telegram from Miller states the Aguan and her cargo will be a total loss. The party will continue the trip originally outlined.

A Tunnel Collapses.

HELENA, Mont., April 6.—A cave-in in the Mulin tunnel, 18 miles west of here, on the Northern Pacific Railroad, occurred yesterday morning. No estimate of the extent of the cave-in can be made until the engineers arrive and make an examination. The tunnel is about one mile long and 15 feet deep. A similar accident occurred two years ago, and trains ran round the tunnel as usual for several weeks. The cave-in was on account of heavy rains last week.

A New Batch of Civil Servants.

CORK, April 6.—At the assizes to-day, John Foley was sentenced to seven years' penal servitude for having had dynamite in his possession during the troubles at Tipperary. Michael Hanley was sentenced to 18 months' imprisonment at hard labor, and Michael Lander two years' similar punishment for posting notices of boycotts. Moynehan and Read were sentenced to a year's imprisonment each and Flyn and Kellher to seven years' each for Moonlighting.

Embargo on American Pork Lifted.

BERLIN, April 6.—The German government has resolved to withdraw the embargo on American pork. The official announcement of this direction will, however, be delayed.

FOREIGN ANARCHISTS

BEING CLOSELY WATCHED BY LONDON DETECTIVES.

A Peculiar International Question—An Italian, Who Was Arrested on the Frontier, Menaces Sentinels When He is Released—European News Notes.

LONDON, April 6.—It is stated that owing to the ferocious utterances of the Communists at the recent celebration in London of the 20th anniversary of the Paris Commune, the police authorities have detailed detectives to watch the more rabid of the foreign anarchists, who now find refuge in England, and to ascertain whether there is really anything in their talk about starting a commune in London, going through a baptism of blood and so forth. If there should prove to be anything in the baptism of blood business, the foreigners will probably be expelled from England or locked up as suspicious persons. The prevalent belief is that the anarchists are noisy but harmless and really have no idea of killing the "beasts of prey," as they call the people who have property. London, however, is infested with them, as they flock here from all parts of the continent, and use theory to hatch plots and conspiracies against continental governments. Hereafter they will be more closely watched. Although Germany permits her agent at Sofia to act also in behalf of the Russian government, an arrangement established when Prince Bismarck was Chancellor, the Kaiser will not allow the German agency to be the shield of any plots or conspiracies against Prince Ferdinand, as a prompt surrender of a Bulgarian in the employ of the embassy has shown. This man, Sochovukoff, is believed by the Bulgarian authorities to have been the leading spirit in Sofia of the conspiracy to murder Premier Stambuloff, and which resulted in the killing of Minister Galtcheff. This surrender was of vital importance to Prince Ferdinand's government and it was equally to the interest of Russia that that he should be protected. The Russian ambassador, Sechovukoff, had a personal interview with Caprivi on the subject immediately after his return to Berlin, but Caprivi was firm. The arrest, it is believed, may lead to the unveiling of the whole conspiracy.

A MAN WITH A GRIEVANCE.

A peculiar international question has arisen at a place called Hofen, on the Swiss-Germany frontier. An Italian, who traversed Switzerland with a performing monkey and a barrel organ, crossed the line into Germany. He was arrested for the want of a passport. While he was in prison his monkey, not being properly confined, got loose and injured a child by biting it. The monkey was killed. The Italian was released and sent back across the frontier, but he has remained for days just on the other side shouting abuse and menaces at the German sentinel immediately opposite, and loudly demanded compensation for his monkey. The German authorities want the fellow silenced, but the Swiss have refused to interfere with him, on the ground that he is doing no harm and has a grievance.

RUSSIAN INTRIGUES.

A Stockholm dispatch says the Swedish Government is being strongly advised to put down Norwegian disaffection with a forcible hand. Government critics claim that Sweden has been too lenient and conciliatory in its treatment of Norway and has thereby encouraged the spirit of secession among a certain class who would sooner see Norway under the protection of Russia or Denmark than Sweden. Neither of these powers, it is said, would dare to help Norway should the disaffection be dealt with. Russian emissaries are charged with fomenting the trouble in Norway.

AFFAIRS IN CHILI.

Advices from Chili leave little doubt of President Balmaceda's approaching defeat. The whole country is aroused against the President by the outrages which his troops have perpetrated everywhere in the burning down of farmers' houses and the destruction of crops and vineyards belonging to the escaped opposition leaders. The late so-called election is said to have been a farce, nobody daring to vote but employees of the Government. The harvest is rotting in the fields owing to the laborers having been impressed or tempted away by bounties to the military society.

London Bank Failure.

NEW YORK, April 6.—A private cablegram announces the failure of John Taylor & Co., bankers, of London. The house is a very large one.

Service of Song.

The services at the R. E. church last evening were of an unsual character a splendid service of song being rendered in place of the sermon. The first part of the service was as usual and the song service commenced after the hymn before the sermon. Mrs. Leech who accompanied the singers at the organ excelled herself and all those who took part rendered their pieces with precision. Miss Mouatt's solo "On Mighty Pens" and Mrs. J. D. Helmcken's solo "By Jesus' Grave," deserve special mention. The service was rendered in the following order:

Cantata	Bridgewater
Dona Misericatur	Bridgewater
Solo—"I know that my Redeemer"	Handel's Messiah
	Miss Cridge.
Quartette and Chorus	"Since by man came death" / "For as in Adam all die, etc." Handel
Solo—"On mighty pens"	Haydn
	Miss Mouatt.
Solo and chorus—"Saviour, Source, etc.	
	Mrs. D. R. Harris and choir. [Schumann
Solo—"In Native Worth"	Haydn
	Mr. F. H. Worlock
Solo—"By Jesus' Grave"	Farmer
	Mrs. J. D. Helmcken.
Solo duett and chorus—"He that dwelleth"	
	Miss Mouatt, Mr. F. H. Worlock [Scott and choir.
Selection from the "Creation"	J. F. Sullivan
Solo and chorus—"Heavens is telling"	
	Miss Mouatt, Mr. H. Offer [Sir J. Stainer and choir.

STRANGE PETS.

A New Craze Among Followers of Fashion.

Curious and Interesting Creatures in Demand for Household Playthings —Reptiles Have Succeeded Wild Animals.

The popular craze to own something that is odd or out of the common order of things has extended itself to household pets, says the New York Sun. A number of departures in this direction have been made in recent years that are strikingly novel. Much time and money have been spent to get some of the curious and interesting specimens that one occasionally hears of as household pets.

The popular craze now seems to be to keep tame and harmless reptiles; wild-cats and jaguars have gone out of fashion. The reptile family is a large one to choose from. Many of the varieties are perfectly harmless and so rare that few persons have ever seen a specimen, and but little is known of their habits.

There are several kinds that are exceedingly pretty, and to learn the peculiar habits of these very timid creatures is oftentimes both instructive and amusing, especially to young people or children.

The smaller kinds of harmless reptiles are, as a matter of course, the only ones from which desirable pets may be selected. They can be kept with little, if any, trouble, and no expense.

The only outlay is the buying of a case in which to keep the pets and even this may be avoided by making one. A good-sized box with a glass side might easily be utilized for a den. A lining of bark both adds to the effect and makes it pleasanter for the inmates of the case. A sandy, gravelly floor, with a few stones, a piece of rugged wood and a good-sized pan of water are all that will be required for the most fastidious reptile. Those intending to keep these curious pets can buy or fit up as handsome a den as the length of their pockets and fancy may dictate.

Of the many wonderful creatures that will thrive in a limited space and readily adapt themselves to circumstances, the green tree-toad is probably the prettiest and most entertaining. It is found in large numbers in Southern Europe and Northern Africa. It lives almost entirely on insects, which it gathers from trees. The formation of the tree toad is indeed peculiar, and is a striking example of the provision made by nature for her children. On each of its toes the tree toad has a small sucker by which it is enabled to travel over smooth perpendicular surfaces. A tree toad can climb up and remain clinging to a pane of glass without any apparent effort. It is so extremely light as to be able to walk over and among leaves without weighing them down or causing the slightest tremor.

In clear, fine, sunshiny weather the color of the reptile is a bright emerald green. If the weather is dull and cloudy the color of the tree toad quickly changes to a muddy, dull green. For food it will take any small insect, and is very fond of flies.

Another pretty and amusing little reptile that is very easily tamed is the common lizard. Its quick movements and the way in which it forages for itself makes it a very interesting pet. The lizards are pretty, and some rare specimens have been brought from the West Indies that are very handsomely marked. They may be kept in the same case with tree toads and thrive on the same kind of food.

There are few reptiles that are despised by the average countryman more thoroughly than the common newt, which may be found in almost all ponds, ditches or small pools. They are perfectly harmless and frequently very beautiful. Some of the varieties are beautifully spotted with bright yellow on a black surface. They are as much at home in the water and as quick of motion as a fish. They are constantly on the move and swim gracefully to and fro, searching for tadpoles, worms and any small water-insects that may come in their way, all of which they devour with avidity. The newt might also be kept in the den with the tree toads and lizards, providing the water supply is large enough to allow the newt space in which to swim. Like frogs, newts do not gain their perfect form for six weeks after they are hatched or come out of the egg, which really hatches itself. They are constantly changing their skins, and often look quite ragged, as if want of a new coat.

A New Kind of Blotting-Paper.

A new process for manufacturing blotting-paper consists in taking unsized paper as it comes from the paper-machine and exposing one or both of the sides to the disturbing action of mechanical means for opening up its surface; for instance, to the grinding or abrasive action of sand-paper, emery wheels, wire brushes or to the action of cards or scrapers. Such action separates and lifts the surface fibers. This process is said to produce a highly absorbent or bibulous paper, especially adapted for use as commercial blotting-paper and for other purposes where an absorbent paper is required, and having its fibers separated and raised, and presenting a velvety surface as distinguished from ordinary blotting-paper. By this process blotting can be manufactured from any kind of paper, regardless of the stock or material from which it is made.

Held on to His Wheat.

An eccentric old bachelor died the other day at Atchison, Kan. He was originally a brewer, but embarked in the grain business long before Atchison had an elevator. He had a large warehouse and lived in his office. Among his assets were three thousand bushels of wheat which he had in his warehouse five years, refusing to sell because the price never reached his mark of value. The care of this wheat was his fondest occupation, and he constantly turned it with a wooden shovel until the kernels have become as glossy as the surface of a china nest egg."

SEVEN-SCORE OF YEARS.

The Extreme Old Age of Some Southern California Indians.

The early inhabitants of Southern California, according to the statement of H. H. Bancroft and other reports, were found to be living in Spartan conditions as to temperance and training, and in a highly moral condition, in consequence of which they had uncommon physical endurance and contempt for luxury. This training in abstinence and hardship, with temperance in diet, combined with the climate to produce the astonishing longevity to be found here, says Charles Dudley Warner in Harper's Magazine. Contrary to the customs of most other tribes of Indians, their aged were the care of the community. Dr. W. A. Winder, of San Diego, is quoted as saying that in a visit to El Cajon valley some thirty years ago he was taken to a house in which the aged persons were cared for. There were half a dozen who had reached an extreme age. Some were unable to move, their bony frames being seemingly anchylosed. They were old, wrinkled and blear-eyed; their skin was hanging in leathery folds about their withered limbs; some had hair as white as snow, and had seen some seven-score of years; others, still able to crawl, but so aged as to be unable to stand, went slowly about on their hands and knees, their limbs being attenuated and withered. The organs of special sense had in many nearly lost all activity some generations back. Some had lost the use of their limbs for more than a decade or a generation; but the organs of life and the "great sympathetic" still kept up their automatic functions, not recognizing the fact, and surprisingly indifferent to it, that the rest of the body had ceased to be of any use a generation or more in the past. Dr. Palmer has a photograph (which I have seen) of a squaw whom he estimates to be one hundred and twenty-six years old. When he visited her he saw her put six watermelons in a blanket, tie it up, and carry it on her back for two miles. He is familiar with Indian customs and history, and a careful cross-examination convinced him him that her information of old customs was not obtained by tradition. She was conversant with tribal habits she had seen practiced, such as the cremation of the dead, which the mission fathers had compelled the Indians to relinquish. She had seen the Indians punished by the fathers with floggings for persisting in the practice of cremation.

At the mission of San Tomas, in Lower California, is still living an Indian (a photograph of whom Dr. Remondino shows), bent and wrinkled, whose age is computed at one hundred and forty years. Although blind and naked he is still active, and daily goes down the beach and along the beds of the creeks in search of driftwood, making it his daily task to gather and carry to camp a fagot of wood.

CANADIAN FORESTS.

Varieties of Trees Best Suited to Propagation.

From present experience, says the Toronto Empire, the varieties most promising for Manitoba and the Northwest are as follows: Box elder, variously known as Manitoba maple, ash-leaved maple and negundo maple, when grown from Northern seed. These lead in hardiness and general adaptability. American elm and white ash also do well when grown from Manitoba seed, and show in a marked degree greater hardiness than those raised from Eastern seed. Yellow canoe and white birch, as well as the cut-leaved varieties, are promising. American and European mountain ash are showing adaptability to soil and climate in a surprising degree. Of the maples (acer dasycarpum) the soft maple and Norway maple are partially successful at Indian Head. The Russian poplars, remarkable for their hardiness and rapidity of growth, are destined to be of great value to our settlers in the Western prairie region, where they form shelter belts for tenderer varieties in incredibly short periods. Experiments on the branch farms at Brandon and Indian Head thus far have demonstrated that in the line of shrubs, eleagnus argentea and eleagnus augustifolia—this last commonly called Russian wild olive—Siberian pea tree (caragan arborescens) and several varieties of the lilac, the Japanese rose (rosa rungosa) will also be useful.

Money in a Meteor.

There is in the office of the Merchants' National Bank, of Kansas City, says the Times of that city, a fragment of a meteor which has a peculiar history. A farmer in Western Kansas had borrowed more money on his farm than he found himself able to repay. While meditating over his bad fortune, but, with the usual energy of the Kansas farmer, still tilling his soil, he turned up this meteoric stone and examined it, but discovered nothing peculiar in its make-up until a relative from the East, who was visiting him, noticed it and told him it was of great value. The farmer communicated with Prof. John Hay, State Geologist, at Junction City, Kan., who visited the place and confirmed the opinion of the relative, and caused collectors of such stones to compete for its purchase. It was sold for a sum largely in excess of the amount required to redeem his home from the money lender.

Mothers!

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35 doses, 35 cents.

To combine elegance in design and finish, together with the most essential points, touch, tone and durability, such pianos can be found at Thomas W Fletcher's, 37 Fort street. m26-2w

COLUMBIAN EXPOSITION.

Statistics of Former Fairs—How Some People Will Get There.

CHICAGO, March 28.—The following table shows some interesting facts concerning previous World's Fairs. It will be seen that while a gradual increase in magnitude has been the rule, the recent Paris Exposition far outstripped all of its predecessors in the number of admissions and receipts. Its receipts were more than two and a quarter millions over its cost:

WHERE HELD.	AREA OF BUILDINGS COVERED, ACRES.	No. OF EXHIBITORS.	DAYS OPEN.	No. OF ADMISSIONS.	RECEIPTS
London, '51	21	17,000	144	6,039,195	$1,780,000
Paris, 1855.	24½	22,000	200	5,162,330	644,100
London, '62	25½	28,653	171	6,211,103	1,644,250
Paris, 1867.	37	52,000	217	10,200,000	2,103,675
Vienna, '73	40	42,000	186	7,254,687	.....
Phila., 1876	60	30,864	159	9,910,966	3,813,724
Paris, 1878.	60	40,366	194	16,032,725	2,531,650
Paris, 1889.	75½	55,000	183	28,149,353	8,300,000

The World's Columbian Exposition will certainly be greater in some respects than was the last at Paris. The buildings will cover at least fifty per cent. greater space; its cost will be more than twice as much, and the number of exhibitors is sure to be very much greater. How the attendance and receips will compare with those of the Paris fair remains, of course, to be seen.

HOW TO GET TO THE WORLD'S FAIR.

Many people are already making preparation to attend the World's Columbian Eposition at Chicago in 1893. This is indicated by the fact that in some parts of the country "World's Fair clubs" are being formed with the object of accumulating sufficient funds to defray the traveling and other expenses of members when they shall attend the Fair. Newspapers received at Exposition headquarters show that these clubs are increasing rapidly in numbers and that much interest is being taken in them. Speaking in general concerning them, it may be explained that their plan of operation includes small weekly assessments upon the members, fines for delinquencies, and, in some cases, the holding of occasional entertainments, festivals, etc., the proceeds of which are added to the general fund. In this manner, without feeling the expense, the members expect to accumulate a considerable fund by the summer of 1893, sufficient, perhaps, to defray their expense to the Fair. One of these clubs in South Carolina deposits its money in the principal bank in the town payable only to a committee of six. It is understood that the money will be drawn out on May 1, 1893, and distributed to the members, each receiving an amount proportionate to his or her contributions.

A man in Monmouth, Ill., has hit upon an ingenious device for securing the same end. He has had made and is putting on the market a "World's Fair Saving Bank." It is of pottery make, and the only way to recover anything that is put into it is to break it. The idea is that the different members of a family will deposit their small change in this bank as occasion offers, and that in the course of the next two years the contributions will swell to an amount sufficient to take the entire family to the Fair, or at least to defray a large part of the expense. These banks are said to be going off like hot cakes.

Doubtless many other schemes will be started with the same purpose and all of them, if properly and honestly conducted of course, are to be commended, for by means of them many will be enabled to attend the Exposition who otherwise would be unable to do so. The attendance at the Philadelphia Centennial, as shown by the number of admissions, was 9,910,996, and at the recent Paris Exposition 28,149,353. Large as was the latter, it is expected that the attendance at the World's Columbian Exposition will equal it.

THE Y. M. C. A. AT THE FAIR.

What is being done for young men throughout the world by the Young Men's Christian Association will be shown by that organization in an extensive exhibit at the World's Fair. The association believes that the opportunity will be an excellent one to show to the world the magnitude and character of its work, and that such exhibition will inspire among visitors greater respect and enthusiasm for the local branches of the organization at their own homes, and thus add greatly to their efficiency. In speaking of the subject a prominent Y.M.C.A. man said: "The display should be pictorial as far as practicable, so that as much as possible may be taken in at a glance. It should be descriptive of the condition of the young men of all nations—their needs spiritually, intellectually and physically. The facilities adopted by the association for supplying these needs should be fully illustrated, and above all the actual success achieved should be graphically set forth. The definite methods adopted in all branches of work should be shown. Of course the exhibit should be the headquarters for all the association members who visit the exposition, and as such should be provided with the things that minister to the personal comfort and amusement of the visitors."

AN INSANE HOTEL GUEST.

A Wealthy Mad Man Gives the Chicago Auditorium People Much Trouble.

CHICAGO, April 6.—Frank Collier, the eccentric lawyer, who visited at the Court of St. James a few years ago, has been making things lively at the Auditorium Hotel here. Things came to a climax this morning about 10 o'clock. Collier came down to the office attired in a dress suit with a fancy white vest, and wearing diamonds in his shirt front. Manager Whipple handed him this note: Dear Mr. Collier I am compelled to ask that you pay the bill rendered you yesterday and that you vacate room 932 this morning as we shall be obliged to take the room from you. "This is an outrage to American citizenship," cried Collier excitedly. "Is it any reason why I should be persecuted in this way because I have been insane? No; every one should extend the hand of fellowship to me. I will not vacate that room, sir, till my week is up. I will barricade the door and the first man who attempts to put me out will be a dead man. The efforts of the hotel clerks to quiet Collier only added fuel to the flame. H rushed around the corridors declaring that he would appeal to the Queen and sue the auditorium for damages. He finally sat down and wrote out a statement of the case and headed it with a long list of names of well known people, to whom he said he had permission to refer. Among them were President Harrison, Levi P. Morton and others. The hotel people say that Collier has been a terror to the auditorium for the last five days. Late this afternoon he was in possession of his apartment with the doors bolted and prepared to resist all efforts to dislodge him, but this evening suddenly vacated his room and without a word quitted the hotel.

THE STRIKING MINERS

Of Pennsylvania—Careful Precautions to Avoid Trouble—Soldiers in Readiness.

MOUNT PLEASANT, Pa., April 6.—There has been no trouble reported in the coke regions. It has been snowing since midnight, and the ground is covered to a depth of several inches. The only topic of conversation among all classes is that of the funerals of the victims at Morewood. Early this morning they were all placed in pine coffins. At 8 o'clock the remains of Valentine Zindle were conveyed to the Polish church, where services were held. Every pew in the church was filled with friends and sympathizers with the dead, while hundreds more stood in the street outside. When it became generally known among the foreign population that religious exercises had been held over the remains of Zindle, the crowd soon began to clamor for the bodies of the others. About 11 o'clock this morning a delegation of Hungarians called upon the undertaker, Zimmerman, and demanded that the remains of their friends be turned over to them. Their demand was complied with and instantly five coffins containing the bodies were lifted to the shoulders of twenty brawny Hungarians and borne down Main street to the Catholic church, followed by a long line of mourners. They were extremely quiet, and no sign of a turbulent element could be detected among them. The body of an Italian was the only one over which religious exercises were not held. A special train on the B. & D. railroad carried the bodies to Scottdale at 2:30 this afternoon, where they will be buried in the Catholic cemetery. Adjutant-General McClelland and Gen. John A. Wiley went to Scottdale early this morning to personally take charge of the deposition of troops which have been detailed to prevent any possibility of an outbreak at the funeral.

Col. Hawkins has just returned from Morewood and reports all quiet along the line. There are no meetings today, but it is expected that a grand meeting of strikers will be held tonight near Mount Pleasant.

Sheriff Clawson and Superintendent Robert Ramsay have just come to Mount Pleasant. They say they anticipate trouble to-day. General Wiley says he does not favor the idea of throwing a guard around every stable and coal tipple in the region, as it would require a whole brigade and be of little service, except for a few days. The militia should be on duty. He has had requests for troops from all parts of the region which he has had to refuse.

At Scottdale the situation is quiet. The coke strikers commenced to come in large numbers to participate in the funeral obsequies of this evening. Master Workman Wise has gone to Mount Pleasant, and together with Father Lambing will have full charge of the remains and funeral train.

The saloons have all been closed. The trench where the victims will be buried has been completed. It is 16 feet long, 7 feet wide and 5 deep. The National Guard authorities state that no strikers' mass meeting will be allowed to gather to-night. The strikers, however, say they will hold a mass meeting in Ellsworth Park in spite of the authorities. Trouble is anticipated.

Tourist Spoons and Opera Glasses.

Mr. A. A. Clayton, of the Diamond Palace, Government street, has now completed and ready for inspection, a large stock of tourist spoons, suitable for souvenirs of Victoria. In the bowls of the spoons are etched scenes of the Gorge, Dunsmuir Castle, Mount Baker, and other pictures of Victoria scenery. He has also just received a consignment of beautiful opera glasses, in pearl and Russia leather, which are pronounced the finest ever imported to this city.

"The Jersey Lily,"

Is what Millais christened his famous portrait of that celebrated woman who since became familiarly known to the public by that expressive and appropriate name. In turn she has coupled her fame with that of the most celebrated toilette article in existence, as witness what she says:—

ANGLESEA COTTAGE, L.B., July 2

Gentlemen,—Altho' it is very unusual for me to use any lotions or washes, still, in answer to your request, I have tried Wisdom's Violet Cream and Robertine. The former I consider especially efficacious in cases of roughness of the skin, and I have been using it every day for the last fortnight. I have found the Robertine an excellent preparation in cases of tan, sunburn, etc., caused by exposure to March winds and a July sky.

Yours faithfully,
LILLIE LANGTRY.

THE CRY OF MILLIONS

OH, MY BACK!

STOP IT NOW,

SOON IT WILL BE TOO LATE.

I have been troubled many years with disease of the kidneys and have tried many different remedies and have sought aid from different physicians without relief. About the 15th of April I was suffering from a very violent attack that almost prostrated me in such a manner that I was bent over. When I sat down it was almost impossible for me to get up alone, or to put on my clothes, when kind Providence sent Dr. Henley with the OREGON KIDNEY TEA, to my hotel. I immediately commenced using the tea. It had an almost miraculous effect, and to the astonishment of all the guests at the hotel, in a few days I am happy to state that I was a new man. I will recommend the tea to all afflicted as I have been.

GILMORE AND McCANDLESS CLOTHIERS & HATTERS

* * * * * * * * *

PAWS: Pause a moment before you throw money away by paying too much for your Spring Clothing, or, what is more aggravating, buying a suit so ugly that you get mad at yourself every time you look at it. You won't do this if you strike the right place. One swallow does not make a Summer, nor does a dozen suits make a Clothing Store. We've got more stock than any other Clothing Store can show you, and our prices are as low as our stock is large.

Boys' Suits from $2.00 up.

Men's Suits from $5.00 up.

The finest range of Neckwear in the city.

We are closing a line of Mackintoshes at from $7 to 11; they all go for $5.

Men's Pants from $1.50 to $6.50.

In fine goods we have exclusive lines made to our own pattern and equal to custom made goods; prices $5.50, 6.00 and 6.50, same goods custom made $9, 10 and 11.

About 10 dozen of our $1.00 all wool overshirts still on hand. Come and see us.

Advertisements unaccompanied by specific instructions inserted until ordered out.

Address THE TIMES P. & P. COMPANY, WM. TEMPLEMAN Manager

POLITICAL MORALITY.

"Twenty years ago the New York Young Men's Association in its monthly journal drew this lively picture of a political meeting: A few 'vinous and vicious vagabonds, in the dirty back room of a drinking house, the literal atmosphere loaded with fumes of liquor and tobacco, the moral atmosphere with oaths and imprecations, met to fix the ticket of an election, to prepare the list of candidates, for whom next day perhaps they are to canvass the wards, to ensure the votes of the sovereign people.' It may be said that this is highly colored, but it is an index to the system that rules."

"And what is the result? Political power is in the possession of the most ignorant, unscrupulous and dishonest class."

"Plunder is legalized with a facility that is encouraging to schemers. Marriage bonds can be legally sundered with little cost of feeling to the promoter of the separation."

The above is taken from the London, Ont., Free Press, and is used as an argument against annexation. Now the TIMES is not disposed to champion the political methods in vogue in the United States; but the TIMES cannot endorse the habit of the pot calling the kettle black. What have we in Canada? Will any candid newspaper deny that fraud is rife? What of our RYKERTS and MCGREEVYS? What of the frauds perpetrated in the recent elections? It will strike candid people that the first duty of the Canadian press is to call attention to and demand a cleaning out of the Augean stable at home, before going abroad on a flaw-picking trip. The developments of the last two years in the matter of the political situation in Canada reveal a condition of things that must end in anarchy except that measures of reform are instituted and faithfully carried out. And reform must begin in high places. It is useless to expect the masses to reform so long as they are being continually tempted by their leaders. And the press must reform itself. Where can the paper be found nowadays that is honest enough to condemn the rascality of its political affiliates? It is an idiosyncrasy of the press to demand the consideration due a public teacher but the rabble, even, are beginning to laugh at this demand as preposterous. Unless the press manages shortly to "rustle" up enough common honesty to condemn what is bad and applaud what is good, irrespective of political considerations, the time is not far distant when none will be so poor as to do it reverence.

SHALL WE LOSE CANADA?

Under the above heading, "The Christian World," the largest of all undenominational papers in the United Kingdom, publishes the following comments, and we would especially draw the attention of British Columbians, and of Messrs. EARLE and PRIOR in particular to it:

"Since 1878, the general elections in Canada have turned on the question of Protection, and the result has invariably been in favor of a protective tariff. This year, however, when Sir JOHN MACDONALD'S Government again dissolved Parliament, they did not dare to appeal to the people on the old cry alone. The Dominion has not flourished as the Protectionists promised she should. True, a number of manufactories have been started, employing a great deal of labor, but the people as a whole, have paid dearly to import duties, for these new industries, and the burden has fallen most heavily on agriculture. The farmers of Ontario and Quebec, by far the most important provinces in the Dominion at the present, have had hard times for some years, and lately their lot has been made almost intolerable by the McKinley Tariff shutting their produce out of the United States. The Liberals came to the rescue by a scheme of "unrestricted reciprocity," by which Canada could send her wares (which are mostly natural products, such as farm crops, timber, minerals and fish) into the United States free of duty, and could receive American wares (which would largely consit of manufactured articles, such as clothing and farm implements) free of duty in return. This plan became so popular that the government no longer dared to give a flat refusal, and before the tide of reaction in favor of the Liberals rose too high the Prime Minister dissolved parliament in a hurry, and asked the farmer to agree to a compromise, by which their produce should be allowed free into the United States, while the manufacturers of the United States should not be allowed free into Canada. Very likely this would have been accepted as a "half loaf," but for the circumstance that it takes two to make a bargain, and the American government said flatly it would not agree to a scheme in which nearly all the benefit would be on Canada's side. So the farmers of Ontario and Quebec have voted against Sir John Macdonald, and his majority in parliament has come down from 49 in 1887 to about 25 in 1891. The levying of high protective duties will now go on as before, and the country will also have to pay heavily for various local works, canals, bridges, railways, etc., which the government, to influence the vote in doubtful counties has promised. But it will not be surprising if this is the last victory, not only for Sir John Macdonald, who is more than 75 years of age—but of his party, for a long time to come. The reaction against protection, which last year annihilated the Republican majority in the United States Congress, is coming in Canada too; and the downfall of Conservative rule at Ottawa is being hastened by the unchecked jobbery and corruption in which favored members of the party have been allowed to indulge. Whether unrestricted reciprocity with the United States will lead to annexation, as Sir John Macdonald has been daily declaring, or whether it will actually prevent annexation by making Canada as prosperous as the United States under the British flag as the Liberals claim, it is certain that Canadians do not now wish to cut themselves loose from the Empire, and will not do so unless the advantages of such a course to their homes are overwhelmingly clear. A great responsibility now rests upon the people of the mother country. If we really do not want the British Empire to be broken up, if we would mourn to see the last political tie broken which binds us to our brothers over the sea—it is for us to examine the matter carefully, to see whether we cannot strengthen the tie. We can at least avoid weakening it by indifference, by lack of sympathy, or by lack of comprehension.

THE REIGN OF STULTIFICATION.

During the recent political campaign, the charge was frequently made by the Liberals, that had Sir JOHN declared for unrestricted reciprocity, the Tory press would have supported him to a man. The reasonableness of this charge is now becoming apparent. We hear no opposition to Sir CHARLES TUPPER'S proposition to reciprocate with the States on lines considerably broader than those of 1854, and indeed, so far as that is concerned, a chorus of Tory approval is being sounded. The first of the Tory press in this Province to "cray-fish" from the high protectionist ground assumed a few short weeks ago, is our esteemed morning contemporary, the Colonist. Says this quondam flaunter of the "old flag," "there is not a province from the Pacific to the Atlantic that would not look upon a reciprocity treaty such as that of 1854 or one considerably wider in its scope as a boon of great value." Of course it attempts to qualify and excuse this retrograde movement. "It must not be understood," says our contemporary, "that, because the majority of the people of this Dominion rejected the crude and indefinite scheme of absolute free trade * * * leaving Great Britain out in the cold, they are opposed to every degree of reciprocity." But this will not do. A reciprocity treaty with the States, "considerably wider in its scope" than that of 1854, is a departure akin to the appropriation of the Liberal trade programme. It is the afterthought of an election won by fraud and misrepresentation. If it is not, why did we not hear something of it during ante-election days. Instead of frantically shaking the "old flag," *a la* Dr. HELMCKEN; why did not the Tories have the candour to admit that reciprocity with the States on broader lines than that of 1854 was desirable? The truth of the matter is, the MACDONALD Government were not, and are not today favorable to reciprocity with the States, except on their own terms, but finding, like PYRRHUS at Asculum, that "another such victory and we are undone" they have concluded to give National Policy *per se* the cold shoulder. But our contemporary does not confine itself merely to the general statement that there is not a province between the Pacific and the Atlantic, etc., that would not look upon reciprocity as a boon. Six weeks ago, it was the burden of the Colonist's song that reciprocity outside of natural products would ruin Canada's infant industries. Our local manufacturers, except they were protected in the fullest sense of the word, would have to shut up shop. No smoke would issue from the chimneys of the Albion Iron Works, etc., should Canada be foolish enough to engage in trade relations with the States not strictly on the lines of the treaty of 1854. But what does our morning contemporary now say? We quote:

"We believe that the number of interests which would be prejudicially affected by a liberal measure of reciprocity would be much fewer than some timid persons imagine, and that many who now think that they would be injured by the establishment of closer trade relations with the United States would be actually greatly benefitted."

Here we have a proposition that should provoke an indignant protest from Messrs. BULLEN *et al.*

It only remains now for the Board of Trade to issue its annual free-trade manifesto to complete the Tory somersault and make the theft of the Liberal trade programme complete. The game, "follow your leader," is begun. The reign of stultification is commenced.

Vale "old flag." Let some... delegated to wipe Dr. HEL... weeping eyes.

PERSONAL.

Movements of Well Known People in Various Directions.

H. Abbott, of the C. P. R., is in the city.

W. B. Dennison, of Nanaimo, is in the city.

J. R. Kerr returned from Vancouver last night.

John Hendry and wife came down last evening.

J. S. Clarke and wife spent Sunday in Vancouver.

A. Gilmore was a passenger by the Islander last night.

G. H. Kennedy, of Wellington, spent Sunday in the city.

Wm. K. Leighton, of Nanaimo, was in the city yesterday.

D. McGillivray, of Vancouver, is registered at the Driard.

Dr. J. M. Lefevre and wife, of Vancouver, are at the Driard.

Harry Young, of the "White House" is expected back from England this evening.

Mr. J. Ogden Grahame, Hudson Bay factor at Kamloops, and Mrs. Grahame, were passengers by the Islander last evening.

S. M. Robins, of the New Vancouver Coal Company, came down from Nanaimo yesterday and left for he Sound last evening.

Dr. McGregor, the city librarian, who was in the Jubilee hospital for some time, was better to-day. He is now at his residence.

Dr. Thomas C. Brainard, Manager of the Hamilton Powder Co., will leave for San Francisco by the City of Puebla on Thursday.

Miss M. Evans was a passenger outward by the City of Kingston last evening, to pay a brief visit to some friends resident on the Sound.

Messrs. G. H. Wilson, with Rithet & Co., W. Wilson, of Cowan & Wilson, and B. Wilson, of the Bank of B. C., left on Sunday morning for Harrison Hot Springs where they will spend a week.

BRIEF LOCALS.

One Day's Doings in City and Province Briefly Related.

Another commodious hall for public meetings. See Lyceum. *

The cheapest spot on earth to buy boots and shoes is at Martin's 47 Johnson street. *

The Islander brought in a car load of feed last night for Brackman & Ker.

New and Elegant line of Brussels and Tapestry Carpets just arrived at Hastie & Erskine's. *

McCallum & Woods, merchant tailors, corner of Douglas and View streets.

The summer hours, 9 till 3:30 o'clock, were inaugurated in the public schools to-day.

Garden or chicken fencing, four feet high, at six cents per foot, at McLennan & McFeely's, 70 Yates street. *

A carload of Fine Goods in antique and old English oak, just received by Weiler Bros., 51 to 55 Fort street. *

The two chief attractions at the higher courts to-morrow will be the miners' trial and the case of J. J. Daley, the latter in the court of summary trials

Men's and Boys Suits, at cost, at Martins, 47 Johnson street. We must make room for our spring stock.

You will get the best merchant tailoring at McCallum & Woods, corner of Douglas and View streets.

The Hill was well patronized yesterday, particularly in the afternoon when Mr. Pferdner's band played the programme as published Saturday evening.

Oysters delivered to all parts of the city. Telephone No. 161, New England Bakery Young Bros., No. 116 and 118 Government street.

A new lot of the "Gold Medal" Carpet Sweepers, the best in the world, at Weiler Bros., 51 to 55 Fort street. *

There was quite an exodus of tailors to the Sound last evening by the Kingston, but there are still enough in the city to complete the pronounced spring costumes that the "fashionable" will wear this season.

The most unique article in furniture yet shown is the "Parlor Mantel Folding Bed," at Hastie & Erskine's. Call and see them *

The younger pupils of Mrs. G. Bridges intend to give an entertainment entitled "Callie's Christmas" at the Philharmonic Hall on the 27th inst., in aid of the new cathedral. Due notice will be given.

180 Pieces of John Crossley & Sons' celebrated Brussels and Tapestry Carpets, just opened at Weiler Bros, 51 to 55 Fort street. *

There was but one case in Chambers to-day, the first court day after the Easter vacation. It was Callioun vs. Thompson, and was an application for leave to sign final judgment. Decision was left over till Wednesday.

Inserted and linen warp Japanese mattings are the latest novelty in these goods, and the ladies will appreciate their usefulness and cleanliness. Weiler Bros., 51 to 55 Fort street. *

The Queen City Building Society helps you to save money. It will aid you in building a house. You may by its means become your own landlord. Prospectus & Bylaws at 46 Fort street.

WHARF AND WAVE.

Jottings of Interest to Marine Men Concisely Compiled.

Steamer Caledonian will ppobably go on her trial trip to-morrow afternoon.

The United States Ship Pinta is expected down from Sitka very shortly, and will go into Esquimalt drydock.

The Albion Iron Works are putting a new stern frame on the American tug Sea Lion, which is now on the Star ways.

A large cave buoy has been put in the place of the beacon which was blown from the sunken scow in the outer harbor.

A new centre board fishing boat is being built on the Columbia River by Mr. Foot. She is 27 feet long by seven and a half be ns.

The Alert, on her return trip, has taken five new seamen for the C. H. Tupper, and five for the Mattie Dyer, to replace those who deserted at Clayoquot. She has also taken up a new cook for the Maggie Mac.

Schooner Labrador (Vancouver), leaves for the North Pacific Ocean tomorrow morning. Her boats have been built of cedar at Foot's shops, Warren's wharf. She looks a pretty craft and sits gracefully in the water.

Mr. Turpel is making preparations for building a new sealing schooner to be ready for next season. The steru and keel are already laid down, but her construction will not be rushed, as it is the intention to make a specially fast sailor and safe vessel of her.

Private Enterprise.

People in the city proper complain of a limited supply of electric light, or a supply just as humor of the man in charge may happen to dictate. On the other hand, residents on upper Fort street complain of no light at all, an infinitely worse state of affairs. This the Tramway Company will in some way lessen, by lighting a certain portion of the street at their own expense. A few incandescent lamps will be placed on particular posts where most needed. The advantage of these lamps will be that the moon will have no effect upon them, and they can be run without the constant consultation of a calendar.

A Whole Family Drowned.

Three canoes full of West Coast Indians were trying to make a landing near Ten Mile Point, Saturday, in the big gale, and had a hard time of it. Two had reached the shore, and one was still some three hundred yards off in a very rough sea. Those on the shore were helpless witnesses of the upsetting of the canoe, and they saw its occupants swept out of sight. The canoe was shortly afterwards washed high and dry ashore, but there is no trace whatever of those who were in it. The lost ones consisted of a father, mother and three children.

Changed Hands.

Mr. Geo. Morrison on Saturday transferred his property on the corner of Langley and Broughton streets to Hon. Theo. Davie. The price is understood to be in the neighborhood of $10,000.

Neck or Nothing.

Mr. C. A. Lombard to-day received a telegram from Dr. Praeger stating that the Nanaimo amateurs would come down to Victoria and play "Neck or Nothing" on Saturday next, in aid of the Jubilee hospital.

More Bricks and Mortar.

The building at the corner of Broad and Yates street will shortly have another story added to it to make it correspond with the new Galpin block on Yates street. Mr. Teague is preparing the plans.

J. G. Tiarks, architect, is calling for tenders for the erection of a two-story brick building and basement, on Douglas street, near Pandora, for J. T. Pierre. The premises will be used by the builder for his tailoring establishment and it will be specially fitted up for that purpose.

The Less Important Cases.

There was a regular old-fashioned harvest of drunks at the city police court this morning. The cases numbered seven, and all paid fines of $5 each. Two Cainamen, charged with an infraction of the fire by-law, were remanded until Monday, and a man named Cains was sent up for one month for supplying liquor to an Indian. A gentleman charged with driving over a bridge at a pace faster than a walk, pleaded not guilty, as he said he could not get the horse to run when he wanted to, not alone when he didn't. The canoe stealing case was dismissed, the prosecutor withdrawing the charge.

Henry VIII.

King Henry VIII occupies the boards to-night at the Victoria, and it can scarcely be doubted that the play will be greeted with the house that it deserves, that is to say, not as a Shakesperian production, merely, but as a tribute to the talented company by whom it will be interpreted. The essence of this play need not here be recapitulated. Every school boy is familiar with the story of Henry VIII, and no young man is unfamiliar with the Shakesperian version of the matrimonial affairs of this much married monarch, while in the saying of Cardinal Wolsey, "Had I served my God as I have served my king," etc. a saying now become historical, we are, as it were, brought face to face with one of the most pathetic incidents of English history. As regards the company who have undertaken the difficult role of interpreting Shakespeare, there can be no doubt of their excellence. We have not merely the press of San Francisco to corroborate us in the statement that the chief actors are what they represent themselves to be, but we are assured of their high qualities as delenators of Shakespearian character from personal knowledge. If Mr. Warde cannot be ranked with Booth, and Mrs. Bowers with Mrs. Siddons, they at least approximate them so closely as to leave no room for criticism except in an academical sense, which is too fine spun to engage practical consideration. It may be assumed as a sure thing that Mr. Warde and Mrs. Bowers will more than meet expectation. Their long and successful career as exponents of Shakesperian character guarantee it.

Merchants Luncheon.

From 11:30 until 2 o'clock and Lowenbrau at the Bank Exchange. *

Large line of Art Squares at Hastie & Erskine's *

REAL ESTATE

THOROUGHBRED STALLION

"KISBER"

will make the season of 1891 at the Victoria Jockey Club Race Track, Victoria.

Kisber by imp. Billet (sire of Volturno, Miss Woodford—2 mile heats, 3.33, 3.31), best on record—Lizzie S. Raceland, etc.) by Voltigeur (winner of Derby and St. Leger) and sire of Videtie (winner of 2000 guineas), sire of Gardevisure (winner of Cambridgeshire), Speculum (winner of City and Suburban), Galopin (winner of Derby and sire of Donovan, St. Simon, Galliarn, King Galop, etc.) out of Miss Knight by imp. Knight of St. George (winner of St. Leger) by Irish Birdcatcher, second dam Eve-Dyna by American Eclipse (sire of Maher, Zenith, Lady Reitel, Gano Gollah, Mungo, Florambo, Counterpior, Monmouth, Eclipse, etc.) 3rd dam Hanna Marie, by Gohanna. Further see Bruce's Stud Book, or apply to the undersigned.

DESCRIPTION.

Kisber is a handsome brown bay, 15.3½ hands high—a well formed and finely finished horse, with plenty of bone and excellent action, possessing a perfect temper, intelligent, level headed and game. Backed with three crosses of stout Whalebone blood through sir Hercules and Touchstone. An analysis of his blood lines shows not a single cross not noted for speed and endurance.

TERMS FOR 1891.

$35 for the season payable at time of service with privilege of return in season of 1892 in event of mare not proving in foal and not having changed owners.

KISBER STAKES—OWNER'S OFFER.

A stake of $200, with $10 entrance fee to be added to stake upon condition that 25 mares be bred to Kisber on above terms this season to be run for in 1891—open to 2 year olds, the get of Kisber—stake divided, 70% to 1st, 20% to 2nd horse—5 furlong dash—weight and date of race announced later.

NOTE—The winner of any Stallion Produce 2 Year Old Stakes is not barred from the Queen's Plate and Derby.

For tabulated Pedigree and all further particulars apply Victoria Jockey Club Race Track, or address

WILLIAM READ, Drawer 18, Victoria.

m21 1m

The Standard Bred Trotting Stallion

CHRISTMAS, 12253.

Christmas is a Bay Stallion, height 15¾ hands; weight, 1,050 lbs., and was bred at Leland Stanford's Farm, California. Will make the season at the Victoria Jockey Club Race track, Victoria, B.C., commencing March 16th and ending July 1st, 1891.

TERMS:

Fifty Dollars ($50 for the season due at time of service) with privilege of return in 1892, if mare proves not in foal, and has not changed hands.

The horse is in competent and reliable hands. All precautions will be taken, but no responsibility assumed against accidents.

PURSE OF $250.

The owner of Christmas offers a purse of $250 to be known as the Christmas Stake, to be competed for in the Fall of 1894, by colts (the get of Christmas), the winner to make a mile inside of three minutes; provided 25 mares are served during this season.

For further particulars and pedigree apply to J. A. SAYWARD, P.O. Box 190, Victoria, B.C.

SUPPRESSING BEGGARY.

The Great Work Done by Count Rumford in Bavaria.

The Churchman, in connection with the discussion of General Booth's scheme for the relief of the unfortunate and criminal classes in England, prints a very interesting article on the great work which Count Rumford, the American citizen, accomplished in abolishing beggary in Bavaria one hundred years ago. Count Rumford's achievements are well worth recalling at this time, when so much attention is being given to General Booth's plans in England. After the Count had made the soldiers of the standing army in Bavaria useful members of society in time of peace by making the garrisons permanent, the quarters comfortable and introducing various industries for the soldiers to engage in for pay, he began to reform the beggars, and the story of his success in that undertaking is a most entertaining one.

Munich was practically at the mercy of mendicants, and the task which Count Rumford set for himself was: 1. The complete extirpation of pauperism from Bavaria. 3. The improvement of the condition of the pauper class to a degree which they themselves must appreciate. 3. A complete removal of the causes of pauperism which then existed. 4. The restoration of the paupers to the State as virtuous and worthy citizens. Those who had lived by begging were made to engage in industry and those unable to work were supported without begging. The people found that there was no way to live without toil, and the center of the new system was the military work-house, so called because the new industrial power was used in the manufacture of army clothing and supplies, and because it finally passed under the control of the War Department. There was a school for children in connection with the work-house, and out of school hours the little ones were taught to work, and the teaching was accompanied by the use of so much tact that work became a delight. And so the pauperism which for generations had fed on indolence and ignorance was abolished in a whole country and with it the crime which goes hand in hand with wretchedness and misery.

AMERICANS GOOD FELLOWS.

Impressions of a French Tourist in This Country.

"Generally speaking," writes a French tourist in America, S. C. de Soissons, to the Boston Transcript, "the average American is a good fellow; he helps you with advice and gives you the benefit of his experience; he is kind and humane. The proof of this I have seen at accidents many times in the streets. If there is some trouble with a street-car, if it is derailed, all the passengers jump out and help to push the car, assist the conductor in every way possible. This is really a very remarkable fact, and it is a great credit to the American people, indicating the development of feeling.

"I have seen the same accidents in Paris, when the poor horses have fallen on the slippery pavements. Do you think that any passenger jumped out or helped the conductor to raise the horse? Not at all. The passengers remained calmly seated in the omnibus and the passers-by looked on laughingly and made jokes about that which was not funny at all."

"The humane feelings are more developed among the masses of your population. Is this due to a higher degree of civilization? I don't know. Is it due to the virtue of primitive nations? I don't know, either. I know only that it is kind, that show of feeling, and feeling, as our grand orator, Mirabeau, has said, is the best part of us."

HEBREWS IN AMERICA.

Results Announced of a Special Inquiry by the Census Bureau.

The division of vital statistics of the Census Office has prepared a bulletin, says the Washington Star, containing a summary of the results of a special inquiry concerning the Jews in this country.

A special schedule was prepared calling for details of age, sex, conjugal condition, place of birth, occupation, etc., of each person in the family reported who was living on the 31st of December, 1889, and of certain details concerning births, marriages and deaths occurring in the family for the five years ended on that date.

These schedules were distributed to heads of Jewish families in all parts of the United States, the necessary names and addresses being obtained from rabbis of congregations and officers of different societies.

No effort was made to obtain complete returns from all the Jews in the country, nor to develop any facts concerning religious or commercial questions, but merely to obtain data from a sufficient number of families who have been in the United States five or more years to afford some reliable deductions concerning the effect of residence under the conditions of life in this country as contrasted with those elsewhere.

The inquiry resulted in the return of 10,618 completed family schedules, embracing 60,630 living persons on the 31st day of December, 1889, and in these families there had been 2,148 marriages, 6,038 births, and 2,062 deaths during the five years ending that date.

The social condition of the families is indicated to some extent by the number of servants kept by them, and, as about two-thirds are reported as keeping one or more servants, the families reported may be said to be in easy circumstances.

The average number of persons to each family on December 31, 1889, was 5.71, and the average annual number for the five years covered by these statistics was 5.47. The average annual number of marriages per 1,000 of total population was much lower than the general rate, being but 7.4, as against 18 to 22 per 1,000 in the Eastern States; and the average age at marriage is greater than among the general population. The low marriage rate and the increased average age at marriage are the principal reasons for the low birth rate.

The deaths reported for the five years give an average annual death rate of 7.11 per 1,000 of population, being about half of the average rate for the general population.

The expectation of life at the age of 10 years, based upon the death rate for the year 1889, is 51.11 and 56.02 years for males and females, respectively, as against 49.99 and 48.05 as calculated by life insurance companies for the general population of this country.

Contrasting the birth and death rates for those of native-born and foreign-born parents indicates that the birth rate is decreasing and the death rate increasing with more prolonged residence in this country, but the general results indicate that the Jews here retain many of the peculiarities which have been noted among them in Europe.

DUTCH DIAMONDS.

The Influence Upon the Industry of a Reduction in Prices.

Last year was a very serious one for the Dutch diamond industry, says the London Times, which was nearly paralyzed by the action of the De Beers Company, of Kimberley, in reducing the production of the raw diamond from four million to two million carats per annum in order to keep up prices. The price of raw diamonds rose more than one hundred per cent. at the mines, and it proved impossible to obtain a proportionate advance for the cut article. This state of things, says the British Consul at Amsterdam in his last report, coming on top of too great an inflation in the cutting industry in Amsterdam, created the greatest distress among the diamond workers, who, as a class, have the reputation of being very thriftless. For several months at the close of the year orders for cut diamonds were altogether wanting, and not only were a great number of families reduced to absolute destitution, but most of the new cutting mills, which have been erected of late, were closed and will probably have to be devoted to other purposes. Since the close of the year the position of the diamond works rather improved. The price of cut diamonds has risen so far as to give some margin for the cost of cutting, etc., but the demand is by no means sufficient to keep the mills and diamond workers of the city employed. A good deal of cutting is now done there for London account direct.

ABE, THE BUNTER.

A Remarkable Old Black Man Who Is Over a Century Old.

Probably the oldest man in Western Massachusetts, says the St. Louis Globe-Democrat, is Abe Parsons, a negro living in this place. He is one hundred and one years old, and has had a romantic and adventurous career. He was born a slave in South Carolina, and ran away from his master in Andrew Jackson's time and made his way to the Northern States through swamps and forests, his only guide being the north star. He reached New York State, where he again became a slave to a New York man. Abe has such a peculiarly-shaped head that doctors and medical colleges are constantly asking for his body when he shall die. On the top of his skull is a bunch about the size of an egg, which seems to be solid bone. He is known as "Abe, the Bunter." Several years ago, when a block of buildings in this town was all aflame, Abe, with a bunt of his head, burst in the heavy door. He also has a great reputation for killing horses and cows. One bunt with his head is as effective as a blow from an axe. He has killed probably twenty old horses in this manner. He worked during all last season at planting, haying and harvesting, and can do a day's work that many a younger man would not find easier

Those Spring Pants.

We are still making them for $4 per pair. A large assortment to choose from.

Also to hand 150 suits of Gent's fine clothing from $8 to $18 per suit, at Russell, McDonald & Co.'s, 134 Douglas street.

GOLD MEDAL, PARIS, 1878.

W. BAKER & Co.'s Breakfast Cocoa

from which the excess of oil has been removed, is

Absolutely Pure and it is Soluble.

No Chemicals

are used in its preparation. It has *more than three times the strength* of Cocoa mixed with Starch, Arrowroot or Sugar, and is therefore far more economical, *costing less than one cent a cup.* It is delicious, nourishing, strengthening, EASILY DIGESTED, and admirably adapted for invalids as well as for persons in health.

Sold by Grocers everywhere.

W. BAKER & CO., Dorchester, Mass.

TENDERS.

TENDERS, CONTAINING SAMPLES, ARE hereby invited, to be received not later than Wednesday the 8th instant at 4 p.m., for supplying summer uniforms for the police force.

Specifications can be seen seen at the office of the Superintendent of Police, and tenders should be addressed to his office.

The lowest or any tender not necessarily accepted.

By Order,
WELLINGTON J. DOWLER,
City Hall, C. M. C.

WHITE ROCK, B.C

This Townsite is situated on Semiahmoo Bay, and is the only deep water seaport between the International Boundary Line and Vancouver, B. C.

It will probably be the Mainland starting-point of the Victoria, Saanich & New Westminster Railway. It is now the outlet for the finest agricultural district in British Columbia.

The C.P.R. has made a survey of a line from Vancouver direct to this point. The Royal City Planing Mills Company has built a substantial wharf here, and has established a lumber yard, which supplies the farmers of this district.

A handsome hotel has been erected and building is going on rapidly.

Several influential and far-sighted corporations have acquired large tracts of land surrounding this Townsite.

Water front lots can now be obtained at low prices.

To introduce this property, we are placing one block of lots on the market for disposal by monthly instalments at nominal figures.

Nearly Finished.

St. James church schoolhouse will be a pretty structure. It will be completed in a very short time now, and will be opened with a grand entertainment, in which the cantata "The Daughter of Jairus" will be given by the choir.

The Water Cart.

Sunday afternoon like Saturday was anything but pleasant, so that the appearance of the watering cart on the streets to-day was received with gladness by those who had to be out. The street committee were blessed for their thoughtfulness in attending to the wants of the people and saving the merchants' goods.

Court of Inquiry.

Capt. Lewis, agent of marine and fisheries, and Capt. Devereaux, of the dry dock, the two commissioners appointed by the Dominion Government, are holding the court of inquiry into the cause of the wreck of the steamer Sardonyx. A number of witnesses will give evidence and the inquiry will likely last for some time.

CHARLES: Oh! I know the place, you get the best dinner there for 25c.

JACK: He serves the best coffee and cake for 15c. I ever had. Yes! we will go.

COAL

The New Vancouver Coal Mining & Land Co., L'd.

(FORMERLY THE VANCOUVER COAL CO.),

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL

(Used principally for Gas and Domestic Purposes).

THE SOUTH FIELD COAL

(Steam Fuel).

THE NEW WELLINGTON COAL

(House and Steam Coal) are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high Illuminating Power, unequalled by any other Bituminous Gas Coal the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used by all the Leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL, which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay, where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.

SAMUEL M. ROBINS,
Superintendent.

Dec. 30.

VERNON, VERNON

THE TERMINUS OF THE

SHUSWAP & OKANAGAN RAILWAY

Situated in the Heart of the Famous Okanagan Valley.

THE RAILWAY CENTRE OF THE INTERIOR

The Shuswap & Okanagan Railway is now under construction, and will be completed and in Operation to Vernon next Summer, 1891.

The Okanagan & Kootenay Railway Co. obtained a charter (with land grants of 20,000 acres per mile) to construct a railway from Vernon to Sproat's Landing, via the Coldstream Valley and Cherry Creek Mines.

A charter will be applied for at the next session of the Local Legislature to construct a Railway from Vernon south to the International Boundary, to connect with the American railway system.

This is a great chance to make money, as Vernon, being in the heart of the most extensive agricultural district in the Province, will undoubtedly become a large and flourishing city.

Arrangements have been completed with responsible parties for publishing a good weekly paper at Vernon, to commence business early in the new year. This paper will be circulated by the company in all parts of the world.

A Large Hotel will be erected early next spring, and plans for same are now ready.

PLANS OF TOWN-SITE ARE NOW IN ALL REAL ESTATE OFFICES

A large number of lots have already been sold, and most of these will have buildings erected on them early next year.
Special inducements are offered to builders. See price list. Free sites will be given to parties establishing industries.
Financial assistance will also be given to responsible parties engaging in legitimate enterprises.

ADVANCE IN PRICES.

The Company will advance prices of all central lots early next month. Intending purchasers should not delay selecting lots now in order to obtain the benefit of this advance.

Vernon is situated in a pass commanding and making tributary to it the whole of the famous Okanagan Valley and its tributary valleys, the grazing country of the Lower Nicola, the mining camps of Rock Creek, Granite Creek, Keremeos, Okanagan and Mouisbee Mountain, the placer diggings of Cherry Creek and Siwash Creek. It is impossible to get to any of the above places without first going through Vernon.

The opening of the Shuswap & Okanagan Railway next summer will flood this favored country with land and mining prospectors, etc., and will give a great impetus to the farming, fruit growing, grazing and mining industries. Several important industries are projected and will likely be started in Vernon next year.

The best advice we can give intending purchasers is to go and see for yourself. The C.P.R. to Sicamous, Stage from Sicamous to Vernon. Leave Vancouver on Mondays or Fridays, arrive Vernon Tuesday or Friday evening.

OKANAGAN LAND & DEVELOPMENT COMPANY, Ltd.

Removal.

Mr. Geo. S. Russell has removed his barber shop to 42 Yates street, next to W. J. Jeffrees. t.f.

Sale Continues.

Mortimer & Co. being unable to complete sale on Saturday night, will finish this evening, offering a large quantity of first-class groceries, small stove, and balance of furniture.

Christ Church Cathedral.

The beautiful Easter services were repeated at the cathedral yesterday morning and evening, and were attended on each occasion by large congregations of worshippers.

Social Dance.

Prof. J. Oliver will give another of those pleasant social dances at his hall on Broad street, on Tuesday evening, 7th inst. First-class music has been secured and a good time is assured those who attend.

Both Remanded.

The case of C. Peterson, charged with criminal assault, has been remanded until to-morrow, to give the doctors more time to investigate the case.

Jno. F. Harbottle, charged with maliciously injuring stone at the Catholic cathedral, was remanded for one week.

Royal Jubilee Hospital.

The regular monthly meeting of the Jubilee hospital will be held to-morrow afternoon in the board room at the hospital. The principal business will be the usual routine falling to a monthly meeting, the report of the sewerage committee and canvassing committee. The latter have been fairly successful in their mission.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

Combined Fire Escape and Hose.

To meet the fire by-law passed recently, entailing the necessity of putting fire escapes to all buildings three storeys and over, messrs. Braden & Stamford have built an ingenious contrivance which will be fitted up to the new Galpin block. It is a pipe ladder, very light, and will run from seven feet above the ground to each flat and over the roof. A landing, properly guarded will provided for each flat where the pipe will be fitted securely to the wall. The main supports of the ladder will be hose connection thus enabling a fireman to get a separate stream into each flat without having the labor of getting a separate hose up. The ladder being hollow, and having the cold water rushing through it, will therefore not be liable to get hot so quickly as a solid one.

NASAL BALM

It is a certain and speedy cure for Cold in the Head and Catarrh in all its stages.

SOOTHING, CLEANSING, HEALING.

Instant Relief, Permanent Cure, Failure Impossible.

Many so-called diseases are simply symptoms of Catarrh, such as headache, partial deafness, loss of sense of smell, foul breath, hawking and spitting, nausea, general feeling of debility, etc. If you are troubled with any of these or kindred symptoms, you have Catarrh, and should lose no time in procuring a bottle of NASAL BALM. Be warned in time, neglected cold in head results in Catarrh, followed by consumption and death. NASAL BALM is sold by all druggists, or will be sent, post paid, on receipt of price (50 cents and $1.00) by addressing

FULFORD & CO., Brockville, Ont.

DRESS GOODS

OPENING DAY

— AT —

THE WESTSIDE

TUESDAY, APRIL 7.

HAVING just received the VERY LATEST STYLES, which cannot fail to command the attention of the Ladies of Victoria, we take pleasure in informing them that TUESDAY NEXT will be our OPENING SHOW DAY in this Department.

The success that has attended our efforts in the past has been such as to warrant our giving special attention to our DRESS GOODS, and we have now to place on view a more varied and finer selection than ever before.

OTHER SPRING GOODS TO HAND

of which more will be heard in Tuesday's Colonist.

J. HUTCHESON & CO'Y

70 GOVERNMENT STREET.

Coming, Coming, Coming! What? A Garden of Eden

The choicest spot anywhere around Victoria to make a home is undoubtedly in the lovely valley of Cedar Hill. FIR GROVE is situated between the Mount Tolmie and Cedar Hill Roads, with a frontage on both, within one mile from the city. The land is all planted with the choicest varieties of apples, pears, plums and cherries, and, as is well known, Mr. Child has expended a large amount of money and care in the planting of the trees. The ground has all been well under-drained, the soil is of the richest, and for gardening purposes no finer spot exists. The property is now in the hands of surveyors, and will be on the market in the course of a few days. As negotiations are in progress to extend the electric railway past this property, now is the time to buy, as prices will naturally advance with the advent of the railway.

DALBY, BALLENTYNE & CLAXTON, BROKERS, 64 YATES STREET, VICTORIA, B. C
